10 Pricing Models

...for AI agencies (with real numbers)

SWIPE →

Pricing is the #1 agency killer.

Most agencies price on feelings.
We priced on these 10 models — and closed $60K in Q1.

L

HOURLY

$50-$300/hr depending on specialization.
Bad for scaling. Good for starters.

II

PROJECT

Fixed scope, fixed price.
Example: Website $3K-$15K.

III

RETAINER

Monthly, recurring.
$1K-$10K depending on value.

IV

VALUE-BASED

% of revenue saved or generated.
AI audits → $5K + 10% of year-1 savings.

V

PERFORMANCE

Pay per outcome.
$50/lead. $500/deal. $2K/app built.

VI

PRODUCTIZED

Same deliverable, fixed price.
'AI Ops Setup — $4,997. 14 days.'

VII

SUBSCRIPTION + USAGE

$500/mo base + $X per workflow execution. SaaS-lite.

VIII

EQUITY

For early startups only.
Cash + small equity slice.

THE RULE

- Start: productized
- Scale: retainer
- Leverage: value-based
- Never: hourly unless 1-off
- Always: charge 2x more than scary

WHAT'S YOUR MODEL?

Reply with the number.
I'll tell you if it's leaving money on the table.
