Build Your Agency OS

in 90 minutes (no joke)

SWIPE →

Agencies overcomplicate setup.

You need 5 things, 90 minutes, and no SaaS subscriptions.
Here's the checklist.

L

00-15 MIN · OFFER

Write ONE sentence:
'I help [X] achieve [Y] through [Z].'
That's your offer.

II

15-30 MIN · WEBSITE

Single landing page on Vercel.
Headline + 3 bullets + 1 CTA + Calendly link.

III

30-45 MIN · CRM

Notion database: Name, status, source, next action.
No HubSpot. No nonsense.

IV

45-60 MIN · DELIVERY

Notion template: scope, timeline, deliverable, payment. Copy for every new project.

V

60-75 MIN · PIPELINE

Pick ONE channel.
LinkedIn: post 3x/week.
Cold email: 20/day.
That's it.

VI

75-90 MIN · FIRST DM

Send 10 messages to dream clients.
Not 'pitch'. Just start conversations.

90 min

Total setup time
(stop adding tools, start shipping)

THE TRUTH

- Agencies don't fail from lack of tools
- They fail from lack of decisions
- Ship ugly > plan pretty
- The OS is the constraint
