AI Content Performance

The truth (180 days of real data)

SWIPE →

DATA://TEST

Everyone says 'AI content doesn't work'.

I tested it on 2 accounts for 180 days.
Here are the actual numbers.

2.1x

Engagement boost on hybrid posts
(AI draft + human edit)

0.4x

Engagement on raw AI posts
(no human editing)

01

FINDING 1

Raw AI = worst performer.
Algorithm detects it. Humans sense it.

02

FINDING 2

AI + human edit = best performer.
30-60% edit rate was the sweet spot.

03

FINDING 3

Hooks written by AI underperformed by 40%.
Humans write hooks. AI writes body.

04

FINDING 4

Consistency > quality.
5 mediocre posts > 1 perfect post.

05

FINDING 5

AI-generated images tanked reach.
Real photos + custom graphics won.

RECAP

THE PLAYBOOK

- Human hooks · AI body · Human edit
- Real photos > AI images
- Consistency beats perfection
- Test with DATA, not feelings
- Edit rate > 30% = safe
