CASE · CTX

CASE #002

Client asked: 'can we automate ops?'

We built 3 workflows.
Their 5-person back office = now 1 person + a dashboard.

AUTO

CASE #004

01

WORKFLOW 1 — DATA ENTRY

PDFs + emails ☐ Claude extract ☐ CRM
Replaced: 2 data entry roles

AUTO

CASE #004

02

WORKFLOW 2 — CUSTOMER ROUTING

Inbound □ GPT classify □ auto-response OR escalate
Replaced: 1.5 support roles

AUTO

CASE #004

03

WORKFLOW 3 — REPORTING

Nightly cron ☐ pulls 6 sources ☐ branded PDF ☐ email
Replaced: 1 analyst

CASE #005

$360K

Annual payroll eliminated
(4.5 of 5 roles, kept senior ops lead)

IMPORTANT

CASE #004

04

THE ETHICS

Client retrained the remaining 4 people.
Moved them into higher-value roles.
Nobody lost their job.

05

OUR FEE

$75K build.
$3K/mo maintenance retainer.
Payback: under 3 months.

LESSON

CASE #004

06

WHAT NOBODY TALKS ABOUT

The workflows aren't the hard part.
Change management is.
People > prompts.

THE PLAYBOOK

- **Identify 3 tasks taking the most hours**
- **Automate □ don't fire □ retrain**
- **Price as % of annual saving**
- **Retain on maintenance**
- **Ship ugly. Iterate fast.**

CASE #010

BUILDING SOMETHING SIMILAR?

DM me the use case.
I'll tell you if it's a 3-workflow job.
