CASE #001

$500 → $10K client

How to 20x your average deal size

SWIPE →

CASE #002

Most freelancers stay stuck at $500 projects.

Not because of skill.
Because of POSITIONING.
Here's the ladder.

POSITION

CASE #004

01

STEP 1 — NICHE

Stop saying 'I do web design'.
Say 'I build lead-gen sites for dental clinics'.

PROOF

CASE #004

02

STEP 2 — CASE

Build 1 case study. Real numbers.
'Clinic X □ 47 new patients/month from site'

03

STEP 3 — OUTCOMES

Price the outcome, not the output.
Not '20 pages' ☐ '47 new patients/month'.

04

STEP 4 — PACKAGE

Productize: 'Lead-Gen Site — $9,997'
Fixed scope. Fixed timeline. No hourly.

DISCIPLINE

CASE #004

05

STEP 5 — FLOOR

Set a MIN price. $5K or $10K.
Walk away from smaller deals.

CASE #004

06

STEP 6 — PROOF STACK

Testimonials · metrics · named clients · logos
Your proof stack = your pricing power

CASE #005

19.4x

Average deal size increase
for freelancers who follow this ladder

THE TRUTH

- You're not 20x better at $10K
- You're 20x more positioned
- Skill is a commodity. Positioning isn't.
- Say no to $500. Say yes to $10K.

CASE #010

STUCK AT $500?

Reply with your niche.
I'll tell you your $10K offer.
