10 Mental Models

Every AI founder should steal

SWIPE →

· WHY ·

Skills make you productive.

Mental models make you correct.
Here are the 10 that shaped us.

CHARLIE MUNGER

01

INVERSION

Don't ask 'how to succeed'.
Ask 'how would I guarantee failure?' Then avoid those.

02

SECOND-ORDER THINKING

Every decision has downstream effects.
Think 3 moves ahead, not 1.

03

OPPORTUNITY COST

Saying YES to X = saying NO to everything else.
Every hour is a choice.

04

10x vs 10%

Thinking 10x is EASIER than 10%.
10% = compete. 10x = rebuild.

PSYCHOLOGY

05

HANLON'S RAZOR

Never attribute to malice what stupidity explains.
Keeps you sane in business.

HUMILITY

06

THE MAP IS NOT THE TERRITORY

Models are approximations.
Reality > plans. Always.

FOCUS

07

PARETO (80/20)

20% of inputs → 80% of outputs.
Find the 20. Kill the 80.

08

CIRCLE OF COMPETENCE

Know what you know.
Know what you don't.
Operate inside the first.

RECAP

THE META-MODEL

- Models → better questions
- Better questions → better decisions
- Better decisions → compounded outcomes
- Skills decay. Models compound.
